ALUMINIUM SYSTEMS

McMULLAN O'DONNELL MEET THE CHALLENGE WITH HIGH QUALITY SOLUTIONS...

McMullan O'Donnell provided a complete external glazing solution for the impressive Down Leisure Centre in addition to the aluminium curtain walling and doors for the project. The company is actively involved in commercial work across the UK and Ireland and Down Leisure Centre is the latest in a growing

list of notable projects. "We worked on Newry Leisure Centre with Felix O'Hare & Co Ltd so we already had a strong working relationship with the main contractor," explained Michael McMullan, Head Estimator. "Down Leisure Centre offered us a few challenges, but we were able to overcome these and we're delighted at the final outcome." Michael added, "Sections of the curtain walling had to be silicon sealed while the Okalux glass around the swimming pool was sourced from Germany, so this offered us some challenges. However, we pride ourselves on our ability to meet these challenges and that is why we

have been more and more successful in the commercial sector."

The company's product range includes a range of PVCu windows and doors for the domestic/residential sector whilst also offering an extensive range of aluminium systems for the commercial sector.

McMullan O'Donnell delivers cost-effective and tailored solutions, striving to provide excellence in performance, security, long life, reliability and low maintenance. In the commercial sector, this has included successful projects in the leisure, education, office and retail sectors.
